

Revised first paragraph

## **CHAPTER 10**

### **USAAF UNITS STATIONED AT BURES AND WAKES COLNE**

This information was obtained directly from the USAAF archives in the States, namely: *The European Theater of Operations, United Kingdom Station List, and dated xxx.* They indicate where the US Army and Air Force Units were on a particular day. It does not mean that the unit arrived or departed on that date; just consider it as an accurate snapshot in time.

(BAA) indicates units with Black or African-American soldiers

Although several Battalions were listed in Bures, the predominate Unit was the: 2108 Ordnance Ammunition Battalion, 1925 Ordnance Ammunition Company

It is clear to see from the Bures records; four different types of units were working in USAAF Station526.
